Certificate

Dear Sirs,

Demag Cranes & Components GmbH (DCC) is officially represented in Iran by the company FIROUZA Engineering Co., located in Tehran, 9th km of Karadj Makhsoos Road.

FIROUZA is our contractual agent in Iran already since 1975 and to this day.

During the long-term partnership our agent has acquired such a high level of technical know-how which enables Firouza Eng. to produce Demag cranes locally in Iran on a licence basis (System DEMAG), according to German design and standards.

FIROUZA's and DCC's product and service quality is very well accepted in almost all industrial sectors in the country. Not least because of the good cooperation between our companies we can assure that our customers are provided with superior technical consultation as well as with excellent after-sales service.

Demag Cranes & Components GmbH

R. Berthan
General Manager

K.-P. Hoffmann
Head of Segment Industrial Cranes
